Appendix 9 Declaration on substances excluded from building products, goods and building materials

The declaration applies to manufacturers of any of the following building products, goods and building materials:

☐ Sealing products (such as vapour, wind and radon barriers, fixed waterproofing of wet rooms, roof surfacing and roofing membrane).	☐ Thermal, acoustic and technical insulation.
☐ Interior and exterior building panels (besides panels of solid wood, laminated timber, veneer, OSB, plywood, MDF/HDF and chipboard)	☐ Interior plastic coverings for floors, ceilings and walls* (Watertight layers, wall film, acoustic dampening foam and other surfacing under surface finishes are not subject to the requirement.)
☐ Wood composites	☐ Wood that is impregnated as protection from rot blue stain and mould.
☐ Drainage pipes*	☐ (Electrical) conduits*
☐ Electricity cables*	☐ Other. Please specify:
☐ Plastic pipes for central vacuum cleaners*	
*Technical areas are exempt from the requirement shafts, machine rooms, electricity centres and othe have access.	
Name of the product	
Manufacturer	
This declaration is completed and signed by t building material based on the knowledge at and/or declarations from raw material manut and new knowledge. Should such knowledge updated declaration to Nordic Ecolabelling.	the time of the application, based on tests acturers, with reservations for new advances
By "included" is meant substances added that are included in the end-product with	3
Are any of the following substances include:	uded in the building product/material?
	Yes No
Substances on the EU's Candidate List*	
Substances evaluated by the EU to be PB substances in accordance with the criteria REACH including substances that has not considered to meet the requirements.	a in Appendix XIII in

Substances classified as carcinogenic, mutagenic or toxic for reproduction (CMR) Category 1A and 1B.				
Substances considered to be potential endocrine disruptors in category 1 or 2 on the EU's priority list of substances that are to be investigated further for endocrine disruptive effects**				
Highly chlorinated short-chain (C10-C13) and medium chain (C14-C17) chlorinated paraffins				
Perfluorinated and polyfluorinated alkylated substances (PFAs)				
Alkylphenol ethoxylates (APEO) and other alkylphenol derivatives (substances that release alkylphenols on degradation)				
Brominated flame retardants				
Phthalates				
The heavy metals lead, cadmium, arsenic, chromium (VI), mercury and their compounds				
Bisphenol A, bisphenol S and bisphenol F				
Boric acid, sodium perborate, perboric acid, sodium borate (borax) and any other boron compounds classed as carcinogenic, mutagenic or reprotoxic				
Tin organic compounds				
* The Candidate List can be found on the ECHA website at: http://echa.europa.eu/sv/candidate-list-table ** See document Annex 1-Candidate list of 553 substances on the following link: http://ec.europa.eu/opvirenment/chemicals/endearing/etrategy/being.en.htm.
